

PROJECT IDEA

My website will be about the mobile card game, Clash Royale.

The name of my Website will be:

Mikael Royale

Description:

Mikael Royale will be a multi-paged website that goes through various topics in the mobile card game, Clash Royale. One page will be dedicated entirely to decks I use and what games I use them for. Other pages might include the current “meta” decks, streamers’ opinions on decks, etc. I will also have a page where people can contact me and suggest things and I may showcase them on the website. Ideally, it will be a way to express myself and how I feel about things in Clash Royale.

Page list:

- Home
- Mikael’s Decks
- Meta Decks
- Popular Opinions
- Community Feedback
- (more potentially tbd)
